Nature Themed Birthday Parties

Ages 3 to 12

DISCOVERY HIKE

Ages 3 & 4

Outdoor

Spring, Summer, Fall or Winter

Discover hidden treasures as you explore the trails at LCEEC! Children will use all their senses on a nature walk and hands-on activities will provide the opportunity to look, listen, feel and smell!

PA MAMMALS

Ages 7 to 12

Outdoor

Spring, Summer, Fall or Winter

Great outdoor winter option!

Discover how to identify mammals by their adaptations! Children will investigate clues to help them classify these creatures. Activities include a skull and fur investigation and a walk along our trails in search of tracks & signs!

INSECT SAFARI

Ages 5-12

Outdoor

Spring, Summer or Fall

Children will explore the forest or the meadow to discover a vast array of insect life. Bug boxes or aerial nets will help us get an up-close look at these critters so we can learn how to identify them and observe their adaptations.

ANIMAL ADAPTATIONS

Ages 3-12

Indoor

Spring, Summer, Fall or Winter

Great back-up rainy day program!

Investigate the diversity of the animal kingdom! Children will learn how body parts, behaviors, colors and patterns influence an animal's ability to survive. Activities include fur and skull investigations and games to reinforce concepts.

STREAM EXPLORATION

Ages 5-12

Outdoor

Spring, Summer or Fall

Learn about life in and around the stream as we investigate this unique environment! Children will be introduced to the concepts of habitat, food chains, and the adaptations needed for aquatic life. We will take a first-hand look at stream life with the use of dip nets and field guides!

General Information

Program Details:

Cost: \$200 for 1-hour program for up to 15 children (this includes siblings) and the use of our space for one hour after the program. Additional children are \$7 per child for a maximum of 20 children. Adults are free.

Set-Up/Clean-Up

We provide tables, chairs, recycling, and garbage bins. Thirty minutes are allotted for set-up and clean-up.
